

Define Green.

This BigToy is made from 71% recycled material*.

It contains:

- 12,328 milk jugs (about a year's worth for 200 families)
- 1,122 pounds of scrap steel
- No PVC
- Potential LEED Points!

BigToys defines green with a cradle-to-cradle promise: we divert source material from landfills, recycle nearly all of our manufacturing waste, and take back structures when they finally reach the end of their long life. After all, BigToys are also entirely recyclable.

Call or visit us on the web today to learn more about BigToys and our commitment to building your next green playground.
